Facilitators:

Sandy Close and Honora Montano, New America Media

Ethnic Media Inputs:

Unless noted, inputs are from the focus group. Quotes have been lightly edited for clarity.

I. Familiarity with OSA

How familiar are you with the OSA's work and the material in Marc's presentation? What surprised you or was new?

High level of knowledge: a few media, including Cathy, Rossana and Amar Totally new information: a few media, including Vandana, Truth and Raymond Most media answered that they have some knowledge of OSA, but not the agency's particular initiatives or the grants programs. Most recalled Measure Q but were not clear on what those funds have been used for.

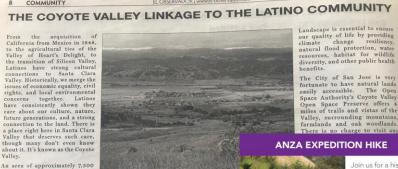

Vandana: The term "open space" is new to many people and is not common in other countries like India, this concept of buying land just to preserve it. So people from my community might be unfamiliar with the rationale behind this. What was new to me in the presentation, it's clear that you are making an effort to come to the community, rather than wait for the community to come to you, and that's a good thing.

Robert: I've lived in San Jose my whole life, and I've never heard of the OSA.

Current Ethnic Outreach

- Op-eds paired with advertisements
- Advertorials in traditional media outlets and translated flyers for events
- Translated and targeted Facebook messaging

EL OBSERVADOR | www.el-observador.com

Landscape is essential to ensure our quality of life by providing natural flood protection, water resources, habitat for wildlife diversity, and other public health

The City of San Jose is very fortunate to have natural lands easily accessible. The Open Space Authority's Coyote Valley Open Space Preserve offers 4 miles of trails and vistas of the Valley, surrounding mountains, farmlands and oak woodlands.

Valley includes Laguna Seca, benefits derived from protecting and coyote, a wet meadow, Fisher Creek, and restoring lands in the Valley, two mountain undeveloped agricultural lands The Coyote Valley Watershed is Coyote Valled with grasslands, and small areas the largest in Santa Clara County food and mate of oak savanna. The Valley is with underground aquifers corridors hel of oak savanna. Ine Vaney is with underground addition an irreplaceable connection supplying more than half of have a chance between the Santa Cruz and the County's water supply. In Coyote Valle, Diablo Mountain Ranges. A addition, the rainwater that recent scientifically-based report spreads in this Valley helps misplaced dev published by the Santa Clara prevent flooding in downstream Valley Open Space Authority, San Jose neighborhoods.
